

Crafting: Bird feeder from a plastic bottle

Materials:

1. Plastic bottle
2. Rope
3. 2 small sticks (branch)
4. Scissors
5. Funnel
6. Birdseed

Steps:

1. Wash the bottle and remove all labels. Dry the bottle.
2. Cut a hole in one side of the bottle. How high and how big that depends of which kind of birds you have in your garden. (under supervision of an adult or an older child)
3. Cut a small hole on either side of the bottle on the same height. (under supervision of an adult or an older child)
4. Look for a small stick in the garden, to put through the two holes.
5. Fill the bottle with bird seed.
6. Put the cap tightly on the bottle and tie the rope around the neck of the bottle.
7. Then hang your bird feeder on a branch, and watch the birds feeding!
