

DOLPHINS & WHALES

YOUR FRIENDLY NEIGHBOURS

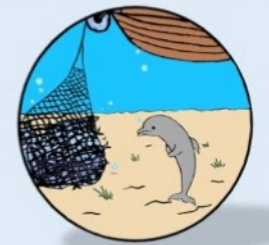

What makes us sad
and what you can do:

Trash & pollution
Pick it up, beach clean
Use reusables

Captivity
Visit me in the wild

No food
Buy from small,
ecofriendly fisheries

Entanglement fishing nets

Mediterranean Sea

I have the biggest brain. And each tooth in my lower jaw weighs 1kg. I am huge!

Sperm whale, 18 m

I am the largest of all dolphins and can live up to 30 years. My upper jaw does not have any teeth.

Look at me:

Risso's dolphin, 6 m

I am super smart: I can learn other animals' languages and am really good at maths. I like to wear seagrass as jewellery.

I look like this:

Bottlenose dolphin, 4 m

I live in huge groups called pods with up to 1000 dolphins. We are more active during the night and rest during the day.

This is me:

Common dolphin, 2 m

I am the best diver because I can hold my breath for up to two hours. I can also pull my fins into pockets at my side which helps me to dive faster.

I look like a Panda!

Cuvier's beaked whale, 6 m

My lifestyle is *fast and furious*. I am super fast, can jump more than three times my length, up to 9 m, and like to perform acrobatics.

Look at my stripes:

Striped dolphin, 2,5 m
